

FOR IMMEDIATE RELEASE

A New Chapter for Our Local United Way

KENNEWICK, WA - October 9, 2026 - United Way of Benton & Franklin Counties is leasing a portion of its Kennewick building to fund additional support for local kids.

Tippett Company has listed the space for lease. It is ideally located near the intersection of Columbia Center Boulevard and Deschutes Avenue in Kennewick in an established professional office park.

Our local United Way was formed in 1958. The community built its first permanent home in the late 1990s; United Way still occupies this 13,176 square foot building. With more than half of its staff now working out in the community, the space is underutilized. Leasing unused space enables our United Way to generate additional resources to invest in the work that matters most - supporting local children and families.

"We're looking forward to welcoming a new neighbor. Making better use of our space means we can put even more resources back into the community we serve," said Corey Osborn, United Way's Treasurer and Board Vice Chair.

A new neighbor. A strong foundation. The same local United Way commitment to our community.
